MARKERS

# professional quality dual-tip markers.

Royal & Langnickel's AZURE™ markers were created with the artist in mind. They are ideal for all styles of art, design, illustration, and crafts. These markers come in a wide range of colors, and feature a broad and fine tip nib combination. The AZURE™ marker sets were thoughtfully created to include a colorless blender in every set. Most importantly, the Colorless Blender is a tool all on its own and is not just for blending! It moistens the marker dye so it can be manipulated, helping to push the color through the paper.

AZURE™ vibrant ink applies smoothly and is easy to blend. Our alcohol based ink dries acid free and works well not to break-down paper fibers. Simplicity is the key, each marker cap includes easily understandable color codes enabling the artist to create without confusion. These markers are permanent and free of harmful chemicals and overwhelming odors, making them a joy to use.

COLOR CODED CAP DESIGN

Royal & Langnickel's AZURE™ markers versatile double-ended design produces four line widths.

Our responsive fine tip nib delivers a wide range of marks perfect for sketching, detail work and makes blending easy. This nib feels much like a traditional brush that holds a lot of pigment, is lasting, and very flexible. It gives artists the freedom to spread ink smoothly in a manner similar to watercolor.

The broad nib on the other end produces three line widths, and can lay down a vast amount of color.

These markers have an ergonomic triangular barrel for comfort, enabling the artist a variety of grips and stroke styles. Also, this barrel design prevents markers from rolling off of the work surface.

AZURE™ markers can be used for all art projects. They are perfect for comics, design work, illustration, manga, landscape architecture, calligraphy, mixed media, crafts, and much more!
